THREADS THE TANG

SCREWS ON TIGHT

Unique Features and Benefits

- Shorter ball handle for comfort and control of heavier farrier rasps.
- A proven design that allows filling as an animal moves.
- Made from select New England hardwoods.
- Premium quality shellac finish for appearance, comfort, durability
- Hardened steel inserts which cut the thread right onto the file tang creating an unsurpassed grip on the file.
- Metal ferrules are made from heavy gauge, special kiln drawn steel
- Made in USA
